Jørgen Agerholm is DVM and possess a PhD in pathology from the University of Copenhagen, Denmark, where he is currently professor in reproduction and obstetrics. The main focus of his research has been on congenital syndromes and inherited disorders of cattle; a research he initiated in 1989 and to which he has devoted much of his professional life. Professor Agerholm has authored more than 50 articles on congenital syndromes and inherited disorders, and originally reported the widely occurring syndromes Complex Vertebral Malformation (CVM) and Brachyspina, which have had major impact on the Holstein breed worldwide. He is Editor-in-Chief of Acta Veterinaria Scandinavica.
